**LET'S SAVE THE ENVIRONMENT TOGETHER!**

The ELFIKI® toy brand follows its own unique philosophy of kids' learning through play and care for the environment at the same time.

ELFIKI natural is exactly the high-quality toys that meet high demands and that children will enjoy for a long time. The toys are made from the bio-based bioplastic (Polyethylene) and wood plastics composite (WPC). Unlike conventional polyethylene, green PE is not made from crude oil, but from sugar cane. In other words, our bioplastics combine sustainability with pioneering material properties that help reduce CO2 emissions. The bio-based polyethylene (Bio-PE) is suitable for extrusion, injection molding and blow molding and is 100% recyclable. With the bio-based Green PE, high material quality can be optimally combined with safety, sustainability and recyclability.

ELFIKI natural toys have a pleasant natural smell of wood. By caring for our kids and the planet we can make the world better for future generations.
